## ARTWORK

It is possible to print individual advertising messages and logos according to your client's needs on most of our products. Our goal is to reproduce your artwork as perfectly as possible with the integrity of their brand in mind.

## PRINT PROCESSES

For high-quality products which are sent around the world as image bearers, the decoration must also be at the same high standard. Our decoration processes guarantee that advertising statements can be reproduced to the highest of standards. Our goal is to make sure that the message forms an integral unit with our product making it a more successful and effective marketing instrument.

## Imprint Artwork

Please provide your imprinting artwork in one of the following formats:

### Company Logo Artwork

Freehand EPS

Adobe Illustrator

Freehand eps, Adobe Illustrator  
*Fonts must be converted to paths.  
 The colors must be defined precisely  
 with Pantone (PMS) numbers.*

### Image Files for Photographic Prints\*

Vector Files

Vector artwork only  
*Files may be in RGB or CMYK color space.*

### Conventional Artwork

Please provide us with reproduction capable artwork in either black & white or color.

## Imprint Methods

### Pad Print

Available in 1-color or multi-color ink processes. Most of our products can be decorated using this practice.

### 4 Color Process

We use a four color photographic print process, (CMYK, 54-pitch screen), where colors are lifted with elastic stamp from a steel plate and transferred to the object being printed.

### Laser Engraving

The practice of using lasers to engrave logos or messaging on our metal Swiss Army Knives & blades, Swiss Tools, Cutlery and Timepieces.

### Standard Engraving

For personalization of Swiss Army Knives and timepiece casebacks. Block letters, (13 max, and 3 line max, may vary based on product.)

\*Photo prints for 4 color process printing ONLY. See pricing chart, (pages 54-55), for lead times and additional costs.

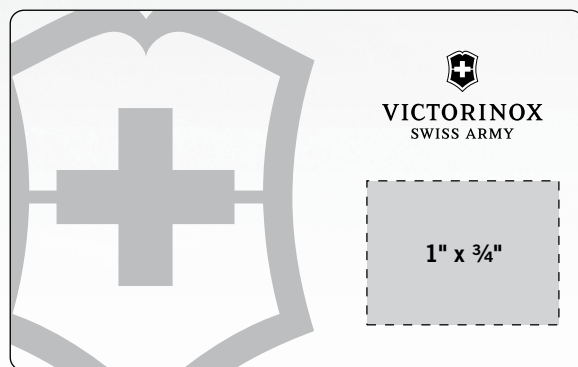

The product pictures and the inscription surfaces illustrated (gray areas) are in a scale of 1:1. The inscription is placed by our experts inside these gray areas, observing optical and graphic rules, and in line with the request of the customer with regard to logo, letters/text.
